## Education

**2024 - 2027**
SABAH Groups

**Bachelor of Information Technology**

I was accepted to the **SABAH groups** of the Information Technologies major of the **Azerbaijan Technical University** with an average of 72.87. I am currently continuing my studies.

**2023 - 2024**
Div Academy

**Backend Development (Node.js)**

I was accepted into the Node.js Back-end development course at **Div Academy** with a 100 percent scholarship by participating in the **Technest** scholarship program.

**2023 - 2027**
Azerbaijan Technical University

**Bachelor of Information Technology**

In 2023, I got a high result in the entrance exam and was admitted to the Information Technology major of **Azerbaijan Technical University**. My final average grade is 92,4.

## Work Experience

**2024**
Edugeniuses Center

**Full-stack developer**

I worked here as an IT Specialist, where I developed a payment system, a portal system for courses, and systems for viewing exam results for the program I was working on.

**2024**
GSL Education Center

**Full-stack developer**

It is a modern platform with an interface linked to the **Sekonic SR-1800EX**-i device, where students and pupils can check their exam results.

**2023**
NMR Council of Trade Unions

**Backend developer**

I worked as a Back-end Developer at **NMR Council of Trade Unions**, building a high-performance API on a strong infrastructure. I have developed systems such as News, Contact Us, Carousel and Write to Us.

**2023**
Nakhchivan Education Center

**Full-stack developer**

At **Nakhchivan Education Center**, I worked as a Full-stack Developer, integrating **Sekonic** hardware with a custom-developed website. The website featured a modern, sleek design and a platform where students could access benchmark answers.

**2022**
Kanal35 TV & 100.3 FM

**IT Specialist**

I worked as an IT Specialist at **KANAL35 TV** and **100.3 FM**, collaborating with the wider development team. I was responsible for website and server troubleshooting, as well as managing communication between computers.
